When placing candidates we follow the Right to Work in the UK Laws. In-house biometric passport testing is available as well as full referencing. We'll provide the legal documentation before a candidate begins work so you have everything you need in place for their start date. For temporary staff, work history is checked and referencing completed to meet your requirements. Wherever needed enhanced, standard or basic DBS checks can also be carried out.

### **SKILLS ASSESSMENTS**

A full range of skills testing for candidates is offered including: spelling & grammar, Microsoft Office Suite, data entry, typing speeds, customer services and psychometric testing.

### **QUALITY & COMPLIANCE**

A five point quality check ensures we always provide the highest possible standard to our clients and candidates alike. As a provider to local authorities and government framework agreements we continually pass stringent audits.
